LOUIS VUITTON

This is, by far, the best pickup we've ever built.

As it turns out, we're not the only people who think so. Motor Trend has named the Ridgeline the 2006 Truck of the Year. Most certainly because of the Ridgeline's inventive design. Unique but functional features like a lockable In-Bed Trunk. a four-wheel independent suspension system and an integrated closed-box frame are welcome additions to the pickup truck category. It's all innovative stuff. Especially considering it's the first and only pickup we've ever built. [HIHONDA]

One man. One engine. One ideal.

MORE POWERFUL. MORE ADVANCED. THE VEHICLES OF AMG ARE, SIMPLY, MORE.

A technician will hone his craft for years before even being considered for AMG. Should he pass muster, he'll then join the select group of master technicians who build every Mercedes-Benz AMG engine. Each engine assembled by hand, in Affalterbach, Germany. Each assembled by a single individual.

highest standards and advanced technology is what

ach engine is person signed and certifies

This reverence for individual craftsmanship, the int

equipment and tools that are state-of-theart and designed specifically for the task. It's there around every bend of the famed Nürburgring test track — a facility so grueling It has entered the realm of myth.

lies at the heart of AMG. It is there in

It is there in a passion for detail and quality so intense, only around 50 people in the world are trained to build our engines.

The results are automobiles that transform high performance into high art. Vehicles in which so much pride is taken, they are, like works of art, signed by the technician who created them.

Unlike any other.

Mercedes-Benz
